Applicants respectfully request that the cited documents be considered by the Examiner and that an initialed copy of the List of References Cited by Applicants be returned to Applicants.

Also for the Examiner's convenience, a sequence alignment is attached to each reference to facilitate examination of the sequences disclosed in the reference as compared with the claimed sequence. Please note that the vast majority of these references are not believed to be prior art, but rather are either published or filed (patent references) within two years of the filing date of the instant application.
